

## FREEDOM FOR CUBA IS CLOSE AT HAND

### UNITED STATES TO HELP HER STRUGGLING SISTER.

**Intense Enthusiasm was Manifested in both the Senate and House at the Proposal to Recognize the Belligerency of the Patriots—Other Legislative News.**

Washington, Feb. 28.—The house committee on foreign affairs, after a warm session of two hours, on Thursday adopted concurrent resolutions declaring it to be the sense of congress that a state of war exists in Cuba; that the insurgents be given the right of belligerents, and that it is the sense of congress that the government of the United States use its influence to stop the war, if necessary, by intervention, and pledging the support of congress.

The resolutions were as follows: "Resolved, by the house of representatives (the senate concurring), that in the opinion of congress a state of public war exists in Cuba, the parties to which are entitled to belligerent rights, and the United States should observe a strict neutrality between the belligerents."

"Resolved, That congress deprecates the destruction of life and property caused by the war now waging in the island, and, believing that the only permanent solution of these contests equally in the interest of Spain, the people of Cuba, and other nations would be in the establishment of a government by the choice of the people of Cuba, it is the sense of congress that the government of the United States should use its good offices and friendly influence to that end."

"Resolved, That the United States has not intervened in struggles between any European governments and their colonies in this continent, but from the very close relation between the people of the United States and those of Cuba in consequence of its proximity and the extent of the commerce between the two peoples, the present war is entailing such losses upon the people of the United States that congress is of opinion that the government of the United States should be prepared to protect legitimate interests of Americans by intervention if necessary."

"Resolved, That congress pledges its support to the president in carrying out the foregoing resolutions."

The main question discussed at the meeting was the expediency of adopting resolutions which, it was claimed, might precipitate the United States in a war with Spain, as Senator Morgan had affirmed on the floor of the senate, but it was generally agreed after talking the matter over that Spain could not possibly take offense at the recognition of belligerency, which simply made the United States a neutral as between the combatants.

There is a probability that before the vote is taken in the senate upon the Cuban resolution pending there it will be amended by adding the minority resolution reported by Senator Cameron, requesting the president of the United States to use his good offices with Spain to secure a recognition of Cuban independence. A majority of the committee, including Senator Sherman, are believed to be favorable to this proposition. Senator Morgan, however, will oppose it on the ground that the two propositions are inconsistent.

### ELECTRIFIES THE SENATE.

**Vest of Missouri Says Some Hard Things About Spain.**

Washington, Feb. 28.—A stirring speech by Mr. Vest in behalf of Cuba was the event of the day in the senate Thursday. It came unexpectedly, as Mr. Vest seldom announces his speeches or makes preparations. The senate had agreed that the final vote on the Cuban resolution would be taken at 4 o'clock p. m. to-day, and the debate was proceeding, Mr. White of California and Mr. Gray of Delaware contending, as a legal proposition, that the United States could not at this time recognize Cuba's independence. This aroused Mr. Vest. He spoke of Spain as the toothless old wolf that had lost, one by one, all her litter, and was still clinging to this single remaining cub. In impassioned words he made an apotheosis to liberty of rare beauty and fervor, adding with ringing emphasis that the Cuban patriots would never, never again become the unwilling subjects of Spain. The debate will be closed by Mr. Sherman to-day. It is considered certain that favorable action will be taken on one of the several resolutions, the only doubt being whether it shall relate to independence or belligerency, and as to the extent of it.

Mr. Vest declared that if we, the great republic of the world, proposed to stand by these people in their struggle, akin to our own, then we must help them in their time of need. And if this aid was not given by sending our fleets and armies—for no one expected that—then at least it should be by stating to the world what the senator believed before God to be true, that Spain could never again establish her dominion over that island. Mr. Vest drew a vivid picture of Spain's bloody rule over the old Spanish-American dependencies.

Mr. Gray interrupted to ask if, as a matter of existing fact, Cuba had now established a condition of existence.

With another burst of eloquence Mr.

Vest responded that it is not for us to determine that the Cubans had completely established themselves. The question for us to determine is, can Spain re-establish her power and dominion over Cuba? The Cubans demonstrated to-day that they had the power to resist Spain. A year ago their uprising was a mere eulogy. Now every Cuban is a patriot. They have abandoned homes and families for the cause of freedom. Spain may exterminate them. "But," said Mr. Vest, with impassioned tones, "Spain will never, never again make them the unwilling subjects of her power."

The senator spoke with contempt of the statements that the Cubans are negroes and mulattoes. So much the more should they have our sympathy, he said, would be a farce. He denied and repudiated the doctrine that every vestige of Spanish power must disappear from the island before we could recognize Cuba as independent. The senator concluded his speech: "Sir, if we do it, God will curse us. If we do this thing and stand here until a desert has been made of that splendid island, you may be certain that the time will come when there will be retribution upon us because we have not been true to the task assigned us by providence, because we have not cherished the legacy of self-government as bequeathed to us by our fathers."

Mr. Gray responded briefly. He said he looked at the question from a dispassionate standpoint, and he could not see how Cuba had established an actual state of independence warranting a recognition of such a state by the United States.

At 4 o'clock Mr. Sherman suggested that the debate go over until today, and an adjournment accordingly was taken.

### ENTHUSIASM IN THE HOUSE.

**Wild Cheering Greets Cuban Resolutions Presented by Mr. Hitt.**

Washington, Feb. 28.—The exciting incident of the day occurred just before the house adjourned Thursday. The strong resolutions prepared by the foreign affairs committee for the recognition of the Cuban belligerents had been presented earlier in the day amid a scene of general enthusiasm. Several times during their reading the clerk was interrupted with rounds of ringing applause from the floor and from the galleries, and the reference to "intervention, if necessary," was greeted with cheers.

On the conclusion of the reading Mr. Sulzer (dem., N. Y.) jumped to his feet and asked, in view of the great public interest in the question raised by the resolutions, that they be made a special order for Tuesday next.

Mr. Meredith (dem., Va.) suggested that they be passed immediately, a suggestion that was approved with more cheers.

Mr. Hitt, however, intervened and said that the committee had instructed him to press the resolutions at the earliest possible moment. Thereupon the excitement subsided and the debate on the election case was resumed. It was after this case had been decided that Mr. Hitt again arose to call up the Cuban resolutions. "I do not wish to make a speech on these resolutions," he said. "They are brief, and present a plain, simple proposition on a question with which every one in America is familiar."

Amid cries of "Vote," "Vote," Mr. Bailey (dem., Texas) said he would make no objection to voting on the resolutions separately, but he was opposed to the last resolution, which pledged the support of congress in advance to anything the executive might do.

Mr. Hitt was saying that he thought there would be no objection to striking out that resolution, and Mr. Turner (dem., Ga.) was on the floor, asking if unanimous consent were required, when Mr. Boutelle (rep., Me.) sprang to his feet and interposed a strong objection. Mr. Hitt was evidently greatly chagrined. He had prepared the request, he said, in deference to what he thought was the unanimous wish of all. Meantime other members were continuing their appeals to Mr. Boutelle until that gentleman turned upon them and declared that he did not propose to vote at a moment's notice to involve his country at war with a country with which we were now at peace. The house then, at 5:15 o'clock, adjourned.

### Will Sue for Michigan Land.

Washington, Feb. 28.—Acting Secretary of the Interior Simms has requested the attorney general to bring suit to recover title to 63,647 acres of land erroneously certified to the state of Michigan. These lands were granted by the act of March 3, 1855, to aid the construction of a harbor and a ship canal to connect Lake Superior and Portage Lake, and the department holds they were designated as mineral lands before the passage of that act.

### Army Appropriation Bill Passed.

Washington, Feb. 28.—Senator Proctor made a strong speech in the senate Thursday urging liberal appropriations for coast defense, declaring they were more necessary than an increased navy. The senate then passed the bill for the construction of two steam revenue cutters to cost not to exceed \$250,000 each, for use on the Pacific coast. The army appropriation bill, carrying \$23,278,000, was also passed.

## SAYS PEARL BRYAN WAS NOT KILLED.

### SENSATIONAL STATEMENT BY JACKSON'S ATTORNEY.

**He Claims that the Body Found at Fort Thomas Was Not That of the Supposed Victim of Walling and Jackson—Thursday's Criminal News Condensed.**

Huntington, W. Va., Feb. 28.—Attorney T. H. Clay of Wayne county, West Virginia, who has been retained to defend Scott Jackson, alleged to be implicated in the Cincinnati murder mystery, says Pearl Bryan is still in the land of the living, and that the Fort Thomas murder was committed to mislead the public. He thinks Walling is guilty of this murder, but the victim is another and not Pearl Bryan. He says that at the present time Pearl Bryan is within forty miles of Cincinnati, and would be produced at the right time. He also has three witnesses who will divulge the secret and expose the mystery in a few days. Jackson knows of it, but is not ready to have the secret let out.

Cincinnati, O., Feb. 28.—The excitement attending the proposed extradition of Scott Jackson and Alonzo Walling to Kentucky on the charge of murdering Pearl Bryan, Jan. 31, gave rise to various sensational rumors. The most startling one was that the head of the murdered girl had been found in a dump on Walnut Hills. The head of a woman was found there at 3 p. m. Thursday. It was carefully examined and the skull and teeth were reported to bear a resemblance to the head of Pearl Bryan. The most reliable information is that the head is not that of the victim of the Fort Thomas tragedy, but that some students from the medical college took the head of a woman from the dissecting-room and worked a ruse on the officers.

In anticipation of the arraignment of Scott Jackson and Alonzo Walling large crowds gathered about the city hall and the jail Thursday. While the authorities considered these assemblages due to sensational curiosity rather than to any conspiracy for lynching, yet they took the precaution to evade both crowds. It is announced that the arraignment papers had been continued to Saturday. The prisoners will then be taken to the strong jail at Covington.

### LEADER AND ROPE NEEDED.

**Their Absence Spoils a Lynching by Reading (Mich.) Citizens.**

Reading, Mich., Feb. 28.—If the inhabitants of Reading had had a leader and a rope Wednesday night Charles Stoner and his wife would have ornamented telegraph poles. This was due to the fact that it was definitely ascertained that the man and his wife had brutally beaten their 5-year-old daughter Bessie, who is idiotic and subject to fits. It develops that because of a weakness which the little one was unable to control, her mother has repeatedly been seen to knock her down with a stove poker or anything else she could lay her hands on, and has whipped the child with a horsewhip until there is scarcely an inch on the little one's body not covered with bruises and scars made by the whip. The physicians who made the examination say that the child's condition is entirely due to the inhuman treatment of the parents.

Winnipeg, Manitoba, Feb. 28.—Attorney General Sifton's motion protesting against the Dominion government's interference with Manitoba's school laws by the passage of a remedial bill was adopted by the legislature Thursday after an all-night sitting, by a vote of 31 to 7. During the debate Major Mulvey, the Orange member for Morris, said he had taken up his gun four times to suppress domestic troubles. He was preparing to take it up the fifth time in the interest of the liberty of Manitoba. In conclusion he remarked: "The member for Russell said 'the Dominion government is the slave of the Catholic church.' Manitoba is in a worse state, being the slave of a slave."

## A REIGN OF TERROR TO BE INAUGURATED

### GOVERNOR WEYLER COMMENCING HIS CAMPAIGN.

**Recent Massacre of Peaceful Citizens in Cuba Thought To Be the Beginning Of the New Order Of Things—He Thinks He Will Soon End the Trouble.**

Havana, Feb. 28.—Refugees from the towns of Punta Brava and Guatao, twelve miles away, have arrived at Havana and say a reign of terror exists in their locality in consequence of the troops having massacred peaceable citizens at Guatao.

The official government report issued Sunday states that a fight occurred near Punta Brava on the previous day between troops sent from Maraino and the insurgent bands of Villanueva and Acosta, resulting in a glorious victory for the Spanish arms, twenty insurgents having been killed and fifteen prisoners taken. Residents at Guatao have identified eighteen of the dead as pacifics (peaceful citizens). Only two are insurgents and the prisoners are nearly all said to be peaceful. One of them, named Ladaislo Quintero, claims American citizenship. He is wounded by a ball in the arm.

General Weyler, in an interview with Karl Botcher, a German writer, declares he expects to put down the Cuban revolution in a year and a half. Not long ago he told Cuban planters he thought they could begin grinding sugar by the middle of next month.

### IOWA LAND FOR SETTLERS.

**Thousands of Acres Recovered from the Sioux City and Minneapolis Railroad.**

Des Moines, Feb. 28.—Twenty-one thousand acres of land in O'Brien County were thrown open to settlement Thursday. Eight thousand acres have already been allotted to settlers who were driven from their homes when the government gave the lands to the Sioux City & Minneapolis Railroad, and who, under a recent law, were granted the first opportunity of getting back their holdings. No claimant is affected by the quarter-section limitation. If he purchased 1,000 acres and can show the railroad title he will be protected. To secure a perfect title the new settlers must live on the land fourteen months and then give to the government \$2.50 per acre, or remain in continual possession for five years and then receive a title upon final profits.

### PROHIBITION VOTED DOWN.

There are ninety-nine members of the house and all but six were present and voted.

**Commander Walker, of the Grand Army, Defines His Position.**

Wilmington, Del., Feb. 28.—National Commander Walker, who attended the session of the Grand Army of the Republic at Newark, this state, freely expressed himself on the proposed meeting of the blue and the gray in New York. He said: "There is not a loyal union soldier who would approve of such a thing. There is a broad distinction between union soldiers and confederates, and so long as I am at the head of the G. A. R. this distinction shall be observed so far as this organization is concerned."

New York, Feb. 28.—It is possible the parade of the veterans of the war, both federal and confederate, will be held in this city on the next Fourth of July, in spite of the opposition of Commander-in-Chief Walker, of the G. A. R. The original plan has been abandoned, and it is now proposed that the union and confederate veterans shall parade as individuals without reference to any organization. This plan is favored by prominent G. A. R. men of this city.

The society built eighty churches last year. The amount expended in carrying on the work was \$600,000. Most of this work is under the direction of the Rev. T. J. Morgan, corresponding secretary.

WANT TO PLAY BASE BALL HERE

Noted Marquette Indoor Team of Chicago Sends a Challenge.

Manager Melville H. Todd, of the Marquette Indoor Base Ball team, writes to The Gazette saying that he would like to arrange a game with any Janesville team, under any terms that are reasonable. The Marquette club is considered the crack club of Illinois and recently defeated the Rockford and Belvidere teams, besides defeating every team in the city of Chicago. At present no team in the Bower City is in shape to meet such a team as the Marquettes, but it is the intention of the Y. M. C. A. to soon select a team among their players who before many days will be in shape to meet any and all outside teams.

NEW TELEGRAPH BLOCK SIGNALS C. & N. W. Company Now Uses Cross Arms and Colored Lights.

The Northwestern railway company has just put up some more signals for day use, upon the block towers, all along its line, between Janesville and Barrington. The new device is called the "Telegraph Block Signal" and is composed of two arms or fans, painted bright red which are raised by the telegraph operator, in his room, by a lever, to which are fastened the wires and chains that operate the signals. At night red and green lights are used for the purpose.

## MRS. G. O. FORD, TOO WANTS A DIVORCE

COUPLE'S DESIRES SEEM TO BE QUITE SIMILAR.

While Her Husband is Getting Ready to Bring an Action, the Fair Florence Lillian Files Her Papers at St. Louis—Legal Time Has Elapsed.

There seems to be no doubt but that Mr. and Mrs. George O. Ford are willing to "call it quits," as both are suing for divorce. The year's time required by law elapsed yesterday. Mr. Ford has already placed his case in the hands of Attorney Fred C. Burpee, but the papers have not been served.

Now comes Florence Lillian seeking the same end. Dispatches from St. Louis state the case in this manner: "Florence Lillian Wilkes-Ford, daughter of George M. Pullman's general manager, Thomas H. Wickes, filed a suit in the circuit court today, for a divorce from George Oliver Ford, of Janesville, Wis. In her petition, Mrs. Ford recites that she married Ford in Wisconsin on December 17, 1894. She alleges that she performed all her duties as his wife until the following February, when Ford deserted her. The petition is devoid of sensational details, and confines its allegations to desertion and "conduct calculated to render her condition intolerable."

The above dispatch was clipped from the Milwaukee Sentinel. The Times-Herald publishes the following, also from St. Louis, which does not exactly agree as to the facts in all respects.

To Spite An Old Beau.

"Florence Lillian Wickes-Ford, daughter of Thomas H. Wickes, vice president of the Pullman Palace Car Company, the pretty heroine of a rather disastrous elopement a little over a year ago, filed suit for a divorce here today, through her attorney, ex-Congressman John J. O'Neill. The defendant is George E. Elmer Ford, of Janesville, Wis. "Ex-Congressman O'Neill did not prepare the papers himself. They were sent to him by the law firm of Jonsson & McDonald, of Chicago. The petition is very brief. It simply recites the couple were married in the State of Wisconsin in December, 1894, and separated in February 1895.

"Desertion is the only ground for divorce alleged. Florence Lillian Wilkes' eldest sister married a man named Walker, but was divorced. Now she lives here with relatives named Harrison, at 2834 Pine street. Florence Wilkes frequently visited her sister here. She was here to attend the 'Veiled Prophet's' ball in 1894. Many local beaux worshipped at her shrine, and even went up to Chicago to see her. But she fooled them by eloping with George Ford, aged 22, clerk for his father, who ran a wood-ware factory in Janesville, Wis. They only lived together a few months.

"She said afterward she never loved him, but married him just to spite an old beau."

Result of Parental Trouble.

The Chicago Chronicle's version of it is still different. Their dispatch says: "Florence Lillian Wickes Ford, the actress and daughter of the vice president of the Pullman Palace Car Company of Chicago, instituted suit Thursday for divorce from George Oliver Ford. The petition is a very short one and sets forth the bare allegation that the couple were married Dec. 17, 1894, in Wisconsin, and that the defendant deserted the plaintiff Feb. 22, 1895.

"Mrs. Ford, or Florence Lillian Wickes, as she is known on the stage, visited this city some months ago and played at the Olympic with Gladys Wallis' company in 'Fanchon, the Cricket.' During the engagement she quarrelled with Gladys Wallis and open hostilities between the two on the stage were several times narrowly averted.

"Her marriage to Ford was in the nature of an elopement and at the time was supposed to have been precipitated by the sensational divorce proceedings between her parents, which were instituted soon after the great strike of railroad employees against the Pullman Palace Car Company."

MOVED THE DRINKING FOUNTAIN J. H. Gately Wins His Point After a Long Time.

After much discussion John H. Gately has finally convinced the powers that be that the city drinking fountain at the corner of Milton and Milwaukee avenues was located upon his property. For some time past a much needed sidewalk bordering upon the Gately property has been contemplated but not built for the reason that Mr. Gately said the fountain had not been properly located. This week things took a different turn. Street Commissioner Watson and men appeared upon the scene. They moved the fountain several inches out into the road, and the citizens of that locality are now awaiting the laying of the much needed walk.

## CONGRESSMAN COOPER A MUSICIAN

He Might Be Called the Mozart or Paderewski of the House.

Washington correspondence. Minneapolis Journal: Representative Cooper of Wisconsin enjoys the somewhat enviable distinction of being the Mozart of the house. He might be called the Paderewski, were it not for the fact that nature same time ago deprived him of the hirsute ornamentation upon his cranium, which effectually prevents him being the rival of the great pianist. Mr. Cooper combines the rare attributes of musician and statesman. When in Washington he stops at Willard's hotel, and the guests of that ancient hostelry are frequently entertained by his performance upon the piano in the parlor. Mr. Cooper is also an artist of considerable ability. He made almost a national reputation during the Fifty-third congress by his opposition to the Pacific railroad funding bill, and if that measure comes up in the house again at the present session, the Wisconsin congressman will undoubtedly be heard from again. He is a young man, a fine lawyer, and ambitious. He may not at the present time have his eye upon the governorship or the senatorial seat, soon to be vacated by Mr. Vilas, but no doubt these prizes may loom up to him through the mists of the future. Everything is possible, it is said, to him who waits—and Mr. Cooper will wait.

## "CHARLEY'S AUNT" WAS FINE

Well Known Comedy Couldn't Be Improved In Any Respect

"Charley's Aunt" delighted a large audience at the Myers Grand last night. It is a high grade, sparkling comedy, one that causes the spontaneous laughter that does a person good. All the parts were in capable hands, and there was nothing about the performance that deserved criticism. "Charley's Aunt" could hardly be improved upon in any respect and Manager Stoddard's enterprise in furnishing so high grade an attraction was rewarded, as it should have been, by a very large attendance.

## WRITERS ARE BORN, NOT MADE

Thackeray Was Thackeray Always, but Stevenson Changed.

The author of "How to write Fiction" appears to be one of those innocents who believe in a newly discovered "science of human nature," and in the theories of M. Zola, says the London Daily News. You go about with notebooks, you bemoan yourself with "heredity," and then, if you succeed, it is partly by dint of your native qualities, partly by aid of griminess not fit to be named among Christians. It is the same affair in poetry. Wordsworth was a poet by virtue of his genius; he was born so; his theories hampered him when he was true to his theories. Even our author perceives that Shakespeare and Homer did not need theories and popular science, falsely so called, and this is just as true of Miss Austen at 20 and of Mr. Du Maurier at an age which we shall not conjecture.

Mr. Du Maurier was born a writer and a story-teller. Thirty-five years ago he proved this in a little sketch in "Once a Week," and rather later in his poem of "Traungirindas" in Punch. Only a very skilled writer could have rendered as Mr. Du Maurier has done the immortal little Belgian poem translated in "Trilby." Yet Mr. Du Maurier has been drawing all his life, not seriously practicing another art, under private tutors, and with an eye on Prof. Huxley's lectures. Improvement is not, of course, impossible, or a matter of chance. Some men, like Balzac, have to crush their gold out of a mountain of "quartz." All, or nearly all, who possess "style" gain it in part by cultivating a natural ear for the harmonies of prose, as observed by them in the great writers. A few, perhaps, but very few, have toiled, like Mr. Stevenson, by the way of "the sedulous ape."

Thackeray from his Charterhouse days, was always Thackeray, and could not answer an invitation to dinner without writing in the Thackeray manner. Mr. Stevenson, on the other hand, kept his dress suit of style for literary occasions and did not wear sword, diamonds or peruk in his familiar correspondence. Yet Thackeray, to the last, took trouble and corrected, as his manuscripts prove, while his manner was more or less conspicuously based on that of Fielding. He was a literary writer, like Tennyson, in verse, whereas we conceive that Mr. Barrie's admirable style owes nothing to literary reminiscence or the labor of the file, but is a happy, spontaneous appropriateness of utterance.

## Hands Off the Buzz Saw!

The friends of any gentleman who cherishes an honorable ambition to be the republican nominee for the presidency next year cannot possibly do him a greater disservice than to get his name mixed up in the public mind this winter with a programme of tariff agitation sure to be futile and sure to hurt business.—Hartford Courant.

## OVERLOOKED.

There Are Patent Medicines and Remedies, Without Number

For Every Disease and Affliction But One.

A prominent physician was recently asked, why it was that there are so many "blood purifiers," "nerve tonics" and remedies for every ill, except one of the most common and annoying, viz: piles. He replied, there are two principal reasons: first, physicians and people in general, have thought that the only permanent cure for piles was a surgical operation, that medicinal preparations were simply palliative. Another reason is, that piles is, in no sense of the word, an imaginary disease; the sufferer from piles is very much aware of the fact, and for this reason, the few so-called pile salves, ointments, etc., have been short-lived. The patient very soon discovered their inefficiency.

He says further, "fortunately however, there is a new remedy for piles, which judging from its rapidly growing popularity will soon take the place of all other treatment; it has certainly made astonishing cures in this obstinate disease and its merit has made it famous among physicians and wherever it has been introduced. This remedy is sold by all druggists under the name of Pyramid Pile Cure.

From the immediate relief which the Pyramid Pile Cure gives in all forms of piles, many physicians supposed it contained opium, cocaine or some similar substance, but upon analysis it was found to be perfectly free from anything of the kind, and that the instant relief and cure which follows its use, is rather the result of its remarkable healing, soothing action on the parts affected.

The Pyramid Pile Cure is the only remedy, except a surgical operation, which immediately relieves and permanently cures every form of piles.

It is sold by druggists at 50 cents and \$1 or by mail from Pyramid Co., Albion, Mich.

Diamond Garment Cutter Schools.

Messrs. De Heover & Higgins have been in Janesville during the past week, having in view the early opening of a class room in this city, in which will be taught the useful art of dress making in all its branches, and for the location of state offices for conducting the work on a larger scale. Diamond Garment Cutter schools have been established and largely attended in Monroe, Beloit, Rockford, Elgin, Dixon and many other points throughout Southern Wisconsin and Northern Illinois and wherever these schools have been opened the very best satisfaction has been given. Very briefly stated the Diamond Garment Cutter system is a practical, simple but thoroughly comprehensive method for cutting, fitting, pressing, basting, and sewing all kinds of garments worn by any member of the family, and full instructions are given of these various items which make the competent dressmaker. It is easily learned and so simple that a child can understand it. The gentlemen above named say they will advise the ladies through the papers as to further plans of the work. We sincerely hope they will meet with good encouragement as what they have to offer is in a fine line of education which has hitherto been neglected.

THE BILL APPROVED BY THE GOVERNOR

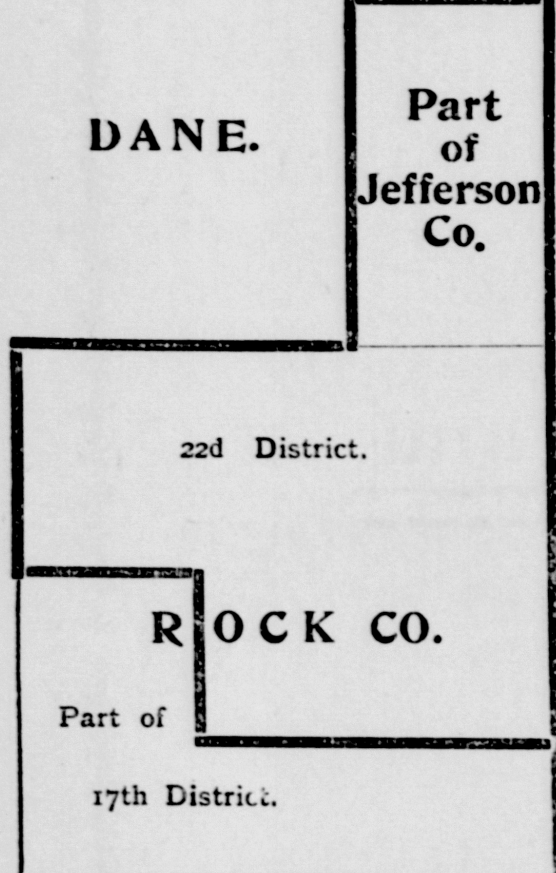

THE REAPPORTIONMENT BILL IS NOW A LAW.

Attorney General Mylrea Advised Him that the Measure Was Constitutional—Diagrams of the Districts That Interest Rock County People—Figure on the Population.

Madison, Feb. 28.—[Special].—The governor today submitted to the legislature a short message signifying his approval of the new apportionment, which is therefore the law of Wisconsin. Previous to approving the bill, the governor obtained an opinion from Attorney General Mylrea in which he declared the measure constitutional. As was stated in The Gazette's Madison dispatches last night, the bill was passed by both houses yesterday. No changes were made in Rock county districts so the divisions of senate and assembly districts are as follows:

Assembly—First district, the towns of Janesville, La Prairie and Rock, and the city of Janesville; second district, the towns of Bradford, Center, Fulton, Harmony, Johnstown, Lima, Magnolia, Milton, Porter and Union, and the village of Evansville, and the city of Edgerton; third district, the towns of Avon, Beloit, Clinton, Newark, Plymouth, Spring Valley, Turtle, and the village of Clinton, and the city of Beloit.

Senatorial—Twenty-second, the towns of Bradford, Center, Fulton, Harmony, Janesville, Johnstown, Lima, La Prairie, Magnolia, Milton, Porter, Rock and Union, and the village of Evansville, and the cities of Edgerton, Janesville, and the cities of Rock, and the towns of Aztalan, Jefferson, Koshkonong, Lake Mills, Milford, Oakland, Sunner and Waterloo, and the villages of Lake Mills and Waterloo, and the cities of Fort Atkinson and Jefferson in the county of Rock.

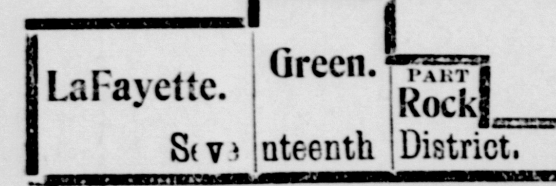

ansville, and the cities of Edgerton, and Janesville, in the county of Rock, and the towns of Aztalan, Jefferson, Koshkonong, Lake Mills, Milford, Oakland, Sunner and Waterloo, and the villages of Lake Mills and Waterloo, and the cities of Fort Atkinson and Jefferson in the county of Rock.

The extreme in variation in population under the democratic law was between the Thirtieth district with 42,142 inhabitants and the Thirty-first district with 64,119, a difference 21,977. Under the bill passed today the widest variance is 19,528, the difference in population between the Fourteenth and Thirty-third districts. The senatorial unit in 1892 when the democrats passed the law was 51,117; at present the senatorial unit is 58,724. The increase in population has been about 15 percent. The variation in population of the thirty-three districts naturally would increase in proportion with the increase in population, arrangement of districts being equally fair in division. The figures on the seventeenth and twenty-second districts by both bills are as follows:

District	Old	New
Seventeenth	57,804	60,976
Twenty-Second	52,267	60,386

Not only is there a much larger extreme variance between districts under the democratic bill, but there is a

much wider variance from the senatorial unit one the average. Under the democratic bill, there were seventeen districts or more than one-half of the total number which varied in excess of 5,000 from the senatorial unit of population, while under the new law there are but ten districts or less than one-half of the whole varying from the senatorial unit to that extent.

What the Bill is Like.

In many respects the bill passed is not unlike the measure originally reported to the legislature by the apportionment committee of twenty. There are practically no changes in assembly districts from the first committee bill. The changes in the senate districts are all in southern Wisconsin. Only two counties are broken—Jefferson and Rock. This was done in order to get around the making of a senatorial district of Iowa, Green and LaFayette counties, which would make the population of that district too large. The greatest variation in the bill as it now stands is in the fourteenth district, which has 66,977 inhabitants and the twenty-third, which has 47,449.

Senator H. C. Putnam was the only Republican who voted against the concurrence. He explained his vote with the statement that he could not do otherwise after the report of the judiciary committee yesterday.

In Cambrics.

We have 150 pieces of 36 inch printed cambrics in pinks, light blues, maroons, navy blues, lavenders, reds, buff greens and blacks. All shades and all colors, simply marvellous of beauty. Bort, Bailey & Co.

NOBODY LOOKED FOR A RUSH OF ENTRIES

THE MID-WINTER FAIR WILL BE A RECORD-BREAKER.

Farmers are Registering in a Way that Startles those Who have had Experience at County Fairs—President C. K. Adams obliged to Stay at Home.

Things are taking shape rapidly at the Midwinter Fair headquarters. Two hundred entries have been received—something unprecedented. This is ahead of anything that the committee had been led to expect. Even at the County fair there are very few entries until the last day, and the rush this week astounded everyone.

Merchants are sending their premiums to the McKey store this afternoon and it is desired that as many as possible of the premiums be delivered at the McKey store tomorrow.

Farmers are urged to deliver exhibits as early as possible Monday. Exhibits will be received Tuesday morning also but there promises to be such a jam that care ul arrange ent will be impossible.

Plans for the Cooking School. Captain Pliny Norcross has offered very generously to put six are lights into the McKey building, this being enough to light it up-stairs and down.

Gas stoves and gas are furnished by the New Gas Light Company.

The cooking school committee, of which Mrs. Ogden H. Fethers is chairman, are arranging to act as a reception committee Tuesday and Wednesday. They will look after the ushering and see that plenty of desirable seats in the front of the auditorium are reserved for visitors from the country.

Mrs. Jameson, who is to conduct the cooking school next Tuesday and Wednesday, requests that every lady attending the school should bring her own fork, spoon and napkins. All other things will be provided. At her recent cooking school at Viroqua five hundred ladies were present, the great majority of whom were the wives and daughters of the farmers. This will be easily beaten next week. Seats will be provided in abundance.

President Adams Can't Come.

The only disappointment that has befallen the managers of the Janesville farm institutes comes in the illness of President Kendall Adams of the State University.

President Adams was on the program for the evening entertainment was looked forward to with great pleasure. He writes Ogden H. Fethers, however, that he has been obliged to abandon all class work and keep in the house. He has been housed for a week and the doctor's orders against his venturing out are positive. He closes by saying of his inability to speak here: "I assure you this distresses me a great deal more than it can distress you. I really hoped for the pleasure of facing a Janesville audience and seeing your people in their own city."

SCHOEN WILL GET HIS INSURANCE

THE FIRE WAS NOT OF INCENDIARY ORIGIN.

Detectives Learn That there was Nothing Irregular about It, and the Money will be Paid—Case of Cruelty to a Dog Reported to the Police.

Charles H. Schoen, the man who accused himself of forging a note for \$780 some days ago, and was taken to jail by Chief Acheson, will get the insurance on his house which was destroyed by fire some weeks ago, the amount being something like \$600. At the time of the fire the insurance agents were not satisfied that all was right, and decided to investigate. A telegraph operator at Footville said he could identify a man who was seen about the premises, but afterward he was not so positive about it. The insurance company interested paid a detective \$50 to investigate the charge thoroughly, and this was done, with the result of satisfying the company that there was nothing crooked about the fire. Consequently the settlement will be made. The matter was brought to District Attorney Jackson's notice at the time, but no action was taken pending an investigation by the proper authorities. Resident of the Second ward yesterday reported to Chief Acheson that some person remarkably deficient of humanity, had tied a rope weighted with a stone about a dog's neck, and thrown the beast into the river. The rope was too long, and instead of pulling the canine under water and drowning it, the cord simply anchored the poor animal in the stream, where it finally died of exposure, after a hard struggle for life.

## TIM'S MIRACULOUS ESCAPE.

The Great Log Struck a Rock and Bounded Over His Head.

"We were rolling logs down a bluff into the St. John river, below Grand Falls," said a lumberman in the Boston Standard. "The bluff was about forty rods up from the river, steep and worn pretty smooth by the log-rolling. A log started over the brink would roll with a tremendous velocity down that sharp descent. Toward the foot of the hill there was a slight ridge and now and then a log would strike it and go bounding into the air and land well out into the river.

"It was a dry time that May and the rolling logs made dusty work. The dust was so thick sometimes that we almost lost sight of the logs before they reached the bottom. If a log was started right it generally followed a pretty straight course down the bluff, but once in awhile a crooked one went slewing or another would get advantage of the rollers and start off end first and so roll on a curve and generally not reach the bottom, but get lodged. Tim Field would then have to go down and dislodge it.

"One day a crooked log slewed and lodged. Tim Field went down to straighten it and send it on its course. While he was engaged thus two men came along with a log. They stopped at the brink and waited for Tim to get out of their way, balancing their log with their peevish.

"Tim; oh, Tim, look out!" "There was no time for the poor fellow to jump aside and no human power could save him from being crushed by that huge descending log. We stood horror-stricken, peering over the edge of the bluff.

"Downward rolled the log, a cloud of dust arising in its wake. For a dozen rods it rolled, gaining velocity as it descended, and then it suddenly struck a rock or some obstruction and gave a loud bound high over Tim's head and struck to the ground below, whence it rolled and tumbled to the foot.

"Tim was untouched. "Although we rolled thousands of logs down the same bluff, I never saw a second one bound in the air like that one. It seemed to us that the hand of Providence had interfered."

## A CHINESE LADY'S DRESS.

Some of the Details of a Most Interesting Costume.

Ladies in China differ from coolies, first in the amount of ornament they display, and second in the material of which their clothing is furnished, says Harper's Magazine. The only occasions for which a lady dresses gayly are weddings, birthdays and feasts or ceremonious visits. Ladies always wear silks—never anything more common—but their "best" are elaborately embroidered. The first outer garment is the san—the single or unlined long coat, hanging loose from the shoulder to the knees, with no waist line. A lady has other coats—lined, fur-lined and wadded. Under her coat she wears a white coat, and under that a smaller white garment, the chin san.

Under everything goes the "piece of cloth," a plain, short apron lapped over at the back. Just such another thing is the skirt, which is worn outside and reaches half a foot below her outer coat. This skirt is always black, except on special occasions. At her wedding it is red and at other special times it is pink, blue, purple, violet or green, and is embroidered with gold or pretty silks. She wears broad trousers to within half an inch of the ground. The bottoms of the legs are elegantly bordered with embroidery.

Ladies wear socks with the seam up the front and beautifully embroidered silk shoes. In winter a wadded silk legging warms the calf and ankle. Out of doors every lady wears a "back and front," or long sleeveless coat, over all her clothing. She carries a folding fan—like a gentleman's fan—in spring, but at other times hers is a round, flat fan, or a fan of fine feathers. As for the coolies, they dress in the same way, but their clothes are made of cotton.

## Germ in Farming.

All visitors from this country to the festivities of the Baltic ship canal may cast a look about the country there. Agriculture there is at the highest point. Woodlands abound from the tiny seedlings to ten and twenty year old trees—mostly pines. Lakes and rivers are unpopulated but full of fish and one can get a swarm by dipping a basket under the water and then drawing it up suddenly, when they swim over it. There the storks build nests of immense size on the roofs, in city and country. Swallows everywhere are seen on the buildings, many nests stone-hard and are used by many generations of them, one built over the other, leaving only a small round opening for entrance; grazing herds of Holstein cattle, sheep and horses; wheat and rye fields. No tramps.—Exchange.

## Warning to American Men.

Miss Edith Lanchester is coming to the United States. Miss Lanchester, it may be remembered, is the young woman who recently created such a disturbance in England by announcing that she meant to enter into the estate of matrimony without the formality of a ceremony. She says that the persecutions of her family make it impossible for her to remain in England.

## So They Have.

The teacher was asking questions—teachers are quite apt to ask questions and they sometimes receive curious answers. This question was as follows: "Now, pupils, how many months have twenty-eight days?"

"All of them, teacher," replied the boy on the front seat.—Utica Observer.

## TROUBLES OF HISTORIANS.

Mr. Kinglake Might Have Made a Hit in One Family.

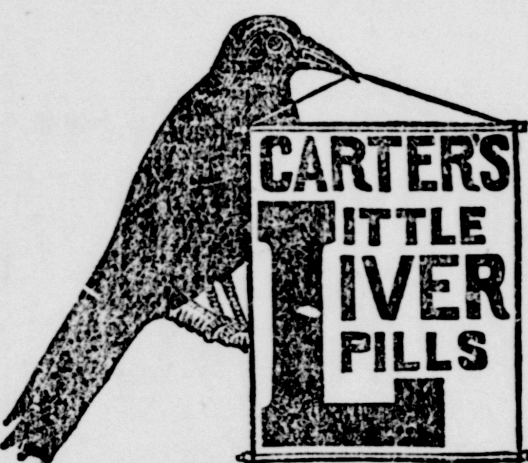

From the New Review: Mme. Novikoff was at a Sunday party at Holland house in the days of its late mistress and was seated between Lord Houghton and Mr. Kinglake. The latter observed, in answer to a remark of the Russian lady, that historians were sometimes very badly treated. "What do you mean?" asked Mme. Novikoff, rather puzzled. "Well," continued Kinglake quietly, as if discussing some grave topic, "just take my case for example. As you know, I am supposed to be an historian. The other day I got a letter which really touched me; it was signed by two people, husband and wife, and came from one of the colonies. They described their grief. Their only child, it seemed, had been killed in the Crimea. For some incomprehensible reason they were most anxious to have their 'beloved darling' mentioned in my history of the Crimean war. Surprised but flattered, I replied by return of post—a thing I have not done for many, many years—that I would be happy to do my best for their comfort, provided they sent me necessary particulars. Again a letter, written and signed by mother and father, arrived, but with the following cruel addition: 'We have no particulars, whatever. He was killed on the spot, like many others, and anything you may kindly invent will be welcome; we leave it entirely to your judgment.'"

## British Jealous of Our Boys.

The navy department has been informed that the royal school of naval architecture at Greenwich will hereafter decline to receive any constructors of the United States navy. No reason for this action is assigned. It is variously supposed here that the British government wishes to prevent the United States from obtaining knowledge of English ship-building plans; that the authorities consider that there is no longer any necessity for extending the courtesy, as equally good training can now be obtained at home, and, finally, that the authorities have become nettled over the success of the American constructors at Greenwich in taking prizes over the heads of British students, as nearly every year a member of the naval construction corps of the United States has taken either first or second prize, and sometimes both of these prizes have been secured by the young Americans.—Washington Star.

## Coming to America.

A sight that will linger long in the memory was witnessed recently at the Gare St. Lazare. Huddled together against the wall, with bundles of clothes piled around them, and dressed in costumes strange to the ville lumiere, were a couple of hundred beings. They looked like hunted dogs and clung together, dazed at the noise and light. In truth they were a band of Armenians flying from their country. Without knowing a word of English, they have decided to go to America to seek fortune.

How many young men and young women are cut off just when the future seems brightest and fullest of promise! They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and enriching the blood. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body—until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases of consumption if used according to directions. It also cures all lingering coughs, bronchial and throat affections.

**SICK-POISON.**

What It Is, and Where It Comes From.

Sick-poison is what makes you sick, irritates your nerves, disorders your functions, saps your strength, makes you miserable.

Different diseases have different poisons, some have several, indigestion more than any.

That is, the symptoms of indigestion are caused by the poisons which are created by undigested food.

When you are sick, try to get rid of your poison.

It is often easier than you think, for all nature is helping you. Only the poison is obstinate, but the first step is to go to the root of it.

The poisons of undigested food, which cause lethargy, headache, dizziness, weakness, bad taste, stomach-ache, fever, flatulence, nausea, constipation, loss of appetite, jaundice, anemia, neuralgia, rheumatism, etc., these poisons can be swept away and annihilated by the Shaker Digestive Cordial.

Curing the stomach and helping it to digest food, when it is too weak to do so by itself, will purify your system of poison and renew your strength and health.

Shaker Digestive Cordial, a pure, vegetable, digestive tonic, made by the Shakers of Mount Lebanon, will cure all disorders caused by the poisons of undigested food when nothing else will give any relief.

Sold by druggists. Ten cents for a trial bottle.

Write for a book on food. Address The Shakers, 80 Reade Street, New York.

Stetson Special,

### The Miller Hat

made by John B. Stetson & Co., more than fills the picture outlined by Doctor Holmes, as it is not only a good hat, but the best hat made.

### The Fall Blocks

of 1895 of both the Miller and the John B. Stetson & Co.'s were undeniably the most tasty hats on the market and did more to set the Hat world agog than all others combined.

### The Spring Blocks

for 1896 are equally as striking and are sure to be the greatest leaders on the market for the coming season.

WE ARE ALREADY SHOWING both of these celebrated hats.

IT IS NOT TOO EARLY TO BUY your hat for spring. We are able to furnish you with any of the new things.
